

CERTIFICATE OF THE SEMINARY OUTCOMES ASSESSMENT

Thank you for your application to Briercrest Seminary!

It is our desire that all students at Briercrest Seminary will see significant spiritual and professional growth as they work through their program. All along the way, we will work towards having intentional conversations about benchmarking growth and development. The first of these is a brief self-reflection on three anticipated outcomes we have for all seminary students as well as specific anticipated outcomes unique to each program.

The reflections we ask for below are not graded and are not meant to determine entrance into the program. Rather, they are meant to establish a point of reference for where you believe you are starting before you enter the program—with hopes that you will become increasingly confident and competent in each area by the time you graduate!

Do not worry if you feel under-equipped or under-prepared or have minimal experience in any area. It is more important to be honest and transparent about where you are at than overestimating or inflating your ability.

This is the first step in preparation for graduation. Please save a copy of this document to be included in your graduation portfolio. If there any questions concerning the requirements outlined below, feel free to contact your admissions advisor.

Blessings,

Robert Bachmann
